COPY of the Instructions, given by the Town of PROVIDENCE, on the 13th of August 1765, to their Deputies in General Assembly.

"AS the full and free enjoyment of *British* liberty, and of our particular rights as colonists, long since precisely known and ascertained by uninterrupted practice and usage from the first settlement of this country, down to this time, is of unspeakable value, and strenuously to be contended for by the dutiful subjects of this or any other frame of government in the world, any attempts to deprive them thereof must be very alarming, and ought to be opposed although in a decent manner, yet with the utmost firmness.

"We conceive that some late resolutions of the parliament of Great-Britain, for taxing us without our own consent, hath a tendency to divest us of our most valuable privileges as Englishmen; and that the measures adopted by the ministry and the parliament in his behalf, if carried into execution, will be a manifest infraction of our inherent rights, as members of British government, and unspeakably injurious in the present distressed and involved state of the colony.

"The ministry in justification of this encroachment upon the incontestible rights of his Majesty's liege subjects in these parts of the world, have pretended that the colonies are represented in parliament by the British members: The contrary is so evident, that a bare denial is sufficient to refute it.

"The refusal of the parliament to hear the humble petitions of the colonies against the stamp-act, the enlargement of the admiralty jurisdiction, and the burthening trade, we look upon as a great grievance, and directly against our rights as subjects.

"With the utmost concern and dread we consider the extensive powers of the court of admiralty; and must freely declare to the whole world, that we look upon our natural rights to be diminished in the same proportion, as the powers of that court are extended: and in this particular we are unhappily distinguished from our fellow subjects in Britain.

"We think it needful in this critical conjuncture, to give unto you who are our deputies, some instructions to be by you observed in your representation of us in general assembly.

"In the first place, we recommend it to you in the most express manner, to use your utmost endeavours, that commissioners be appointed by the assembly to meet with the commissioners from the other colonies on the continent at New-York, on the first day of October next, agreeable to the proposal and request of the province of Massachusetts-Bay, signified to this colony, in order to unite in the petition to the King, for relief from the stamp-act, and other grievances.

"In the choice of these commissioners, we are assured from the knowledge of your virtue, that you will pay more attention to merit, skill in public business, and a zeal for the welfare of the colonies, than any other consideration.

"We likewise request you to do all in your power, consistent with our relation to Great Britain, towards postponing the introduction of the stamp-act into this colony, until the colonies may have opportunity to be heard in defence of such just rights, as they will be deprived of by an execution of it: and to this end that you endeavour to procure our essential rights to be asserted in general assembly, by votes or resolves to the following effect.

[*The resolutions being nearly the same as those of the Virginia assembly, need not be inserted here.*]

"And inasmuch as it hath lately been drawn into question, how far the people of this his Majesty's dominion of Rhode-Island have a right of being tried by juries, we earnestly recommend it to you to procure an act to be passed, if it may be done, declaring, that the courts of common law only, and not any court of admiralty, have, and ought to have jurisdiction in all causes growing and arising in this colony, on account of levying or collecting any internal taxes, or of any matters relating thereto: and that such process and way of trial shall hereafter be had and used in such matters, as have been usual and accustomed time out of mind. And further, that no decree of any court of admiralty, respecting these matters, shall be executed in this colony.

"We think that an address of thanks ought to be voted by the general assembly, to those gentlemen who distinguished themselves at the last session of parliament, in the defence of liberty and the colonies; in particular to Gen. CONWAY, and Col. ISAAC BARRE.

"As to other matters, not of such general concernment as the foregoing, we leave their management to your prudence and judgment, in which we put the greatest confidence. A true copy,

Witness, JAMES ANGELL, *Town Clerk.*

From the Connecticut Gazette.

AUGUST 30th, 1765.

The following piece concerns the Liberty and Property of every Freeman in the Colonies, and is therefore recommended to their most serious and attentive consideration.

AS the late Stamp Act occasions great and universal uneasiness in the minds of the people throughout North-America, and is really a matter which very nearly affects their interest and liberties, it behoves every lover of his country to contribute what he can towards their relief. The principal matters of grievance complained of are,

1. That it imposes a tax upon them without their consent, by themselves or representatives, and so deprives them of a privilege which has ever been very dear to Englishmen, and which they have hitherto enjoyed, and think they have right to enjoy in common with their fellow subjects in Great-Britain, and which, if they are deprived of, they think they cannot, in any proper sense, be said to be a free people.

2. That the manner in which it is to be collected will occasion great trouble and embarrassment to them in transacting their affairs.

3. That it is a more expensive, and less equal way of raising money, than their ordinary way of taxing.

4. That by said act, the jurisdiction of the court of admiralty is extended in the colonies, beyond what was ever thought expedient or safe in Great-Britain, as it subjects the colonists to prosecutions in that court, for any supposed breaches of the stamp act, or any other revenue act, and so deprives them of the privilege of being tried by a jury, which is as great a grievance as the stamp duties.

5. That the tax is imposed at a time when they are greatly burthened with public and private debts, incur'd by means of the late war, and when their trade is greatly burthened and clogg'd, whereby they are deprived of the means of procuring money to pay their provincial taxes, or other debts; and therefore will greatly distress the people.

Province of Massachusetts Bay, in Council, September 9th, 1765.

His Excellency spoke to the Council in the following words.

GENTLEMEN,

I HAVE been informed that it is reported about the *town*, that the stamped papers are to be lodged in the castle, there to be unpacked and distributed. I have frequently in conversation shewn the absurdity of such a supposition; but as what I have said is perhaps not much known, I make this declaration to you; that I have no warrant, order or authority whatsoever to distribute the stamped papers, or to unpack the bales, or separate the parcels, or order any person whatsoever so to do; that it cannot be conceived that I should be so imprudent as to undertake a business to which I have no appointment, and make myself answerable for large sums of money, the receipt of which I cannot attend to, and have no power to direct or order: What I have done in pursuance of your advise, in ordering the stamped papers to be deposited in the castle, and there to be defended with all the force of that fortress, was to preserve them intire and unpacked for his majesty's use. In this I have two things in view, to prevent imprudent people committing an high insult upon the king, an indignity which would be sure to meet with particular resentment; and to save the town or province, as it may happen, from being made answerable for so great a sum as the value of the stamped papers will amount to; as they certainly will be, if the stamped papers should be taken away. In providing against these two Evils, surely we are endeavouring to do the town and province, real and important service, whatever people in their present temper may think.

His Excellency having made the foregoing declaration to the board, they signified their unanimous desire to his Excellency that he would permit the same to be published; and his Excellency thereupon gave permission for publishing the same accordingly. A. OLIVER, Secr.

By the King's Authority.

PUBLIC notice is hereby given, That the Commissioners appointed by his Majesty, for the sale and disposal of lands in the Island of Grenada, the Grenadines, Tobago, St. Vincent and Dominica, have resolved to hold the sales of land for the ensuing year, in the several Islands that are the object of their commission, at the following times, that is to say,

On Monday the 17th day of February next, the sale will commence in the Island of Dominica. The lots will consist chiefly of estates abandoned by the French in different parts of the island; plantation lots in the levels of Boery, Roseau and Layou, and in the neighbourhood of Prince Rupert's Bay and Grand Bay; and several town-lots in different places.

On Thursday the 10th day of April next will be put up to sale, some houses and lands in the island of Grenada.

On Tuesday the 6th day of May next will commence the sale of lands in the Island of Tobago, where several plantation lots in the neighbourhood of Great Courland Bay, Great Rockley Bay, Barbados Bay, Grand River Bay, and Carrapuse Bay, will be put up to sale. And,

On Wednesday the 28th day of May next will commence, the sale of lands in the Island of St. Vincent, where will be put up to sale, several plantation lots in the level of Morne Agarou, and in the quarters of Chateau Belhair, and Ouachilabau, mostly of a very excellent soil, and adapted for sugar plantations; and several town-lots in different places. And also will be put up to sale, in the Island of St. Vincent, at the same time, what plantation lots remain unsold in the Island of Tobago. Advertisements descriptive of the situation and soil of each allotment shall be published as soon as possible.

The terms and conditions on which the said lands will be sold are. That no person shall be permitted to purchase from the crown, either in his own name, or in the names of others in trust for him, more than allotments to the amount of five hundred acres in the Island where the lands lie, or more than three hundred acres if in the Island of Dominica.

That the highest bidder for each lot shall be declared the purchaser, who shall thereupon pay down twenty per cent. of the whole purchase money, and six pence sterling for each acre of which his lot shall consist, to defray the expence of surveying the same; whereupon he shall receive a bill of sale and a certificate from the Commissioners of his being the highest bidder; upon producing which bill of sale and certificate to the Governor General of the Grenades, and the Neutral Islands, or the commander in chief for the time being, he shall be entitled to a grant in fee simple (under the seal of the Island) of the lands by him purchased, and take possession thereof; such grant to be registered in the Secretary's-Office of the respective Island where the lands lie.

That in case of fraud, collusion, or other contravention to the King's instructions, and not otherwise, the grant shall be revocable, for the space of twelve months from the date thereof, by the Lord High Treasurer, or the Lords Commissioners of his Majesty's Treasury, for the time being; but if not revoked within that term, the same shall then be absolute; if revoked, notice thereof shall be immediately given, and the money returned to the purchaser with the usual interest of the Island; and compensation also made for all sums of money, which shall bona fide have been laid out for clearing, improving, or building, on any part of the lands contained in such grant, to be ascertained by arbitration.

That of the purchase money remaining due, ten per cent. more than the twenty per cent, above-mentioned, shall be paid within the first year after the date of the bill of sale, ten per cent. the second year, and twenty per cent. every successive year until the whole shall be paid; but in default of any of the said payments, the lands shall be liable to be forfeited, and again sold, in order that the King may be first paid, and the residue shall be the property of those before intitled to it.

That from twelve months after the date of the grant, the purchaser shall clear away at the rate of five acres in the hundred annually, until one half of the cultivable land shall be cleared, under a penalty of five pounds sterling per annum for every acre not cleared in pursuance of this condition.

That for every hundred acres of cleared land, the purchaser is or shall be possessed of, he shall keep thereon one white man, or two white women, under a penalty of forty pounds sterling for every white man, and twenty pounds sterling for every white woman that shall be wanting; and pay an annual quit rent of six-pence sterling per acre on whatever cleared land he has purchased, or shall clear in pursuance of the conditions required.

That all payments shall be made conformable to the King's instructions to the Receiver, in good gold specie, to be taken by weight at the rate of three pounds eighteen shillings and three pence sterling per ounce; and bonds shall be given to him by the purchasers for the payments of the several instalments.

That a reservation shall be made to the King of all gold and silver mines, which are now, or may hereafter, be discovered in the said Islands. *By Direction of the Commissioners,*

JOHN GREG, *Secretary.*

Dominica, August 8, 1765.

WHEREAS several of the twenty-five persons to whom Governor Dalrymple granted town-lots in Charlotte-Town, have not laid their grants before the Commissioners, as required to do by several advertisements, public notice is therefore given, that all unclaimed lots whereon houses have not been built, and for which the proportion of the money stipulated by Gov. Dalrymple's agreement to be paid for Madam Fourneau's pasture shall be unpaid on the 1st day of January next, will be considered as forfeited, and sold by public auction; and those persons who have made their claims and produced their grants, are required immediately to pay seven pounds ten shillings currency to Mr. Greg the secretary, that sum being each person's respective share of the purchase money, when they may receive the certificates to enable them to procure grants under the great seal of these islands.

By Direction of the Commissioners,

JOHN GREG, Secretary.

PUBLIC notice is hereby given, that the commissioners appointed by his Majesty for the sale and disposal of lands in the island of Grenada, the Grenadines, Tobago, St. Vincent and Dominica, have fixed their office in Kingston, in the island of St. Vincent; and desire that all letters for them may be addressed accordingly. *By Direction of the Commissioners,*

JOHN GREG, Secretary.

Dominica, July 8, 1765.

By the Commissioners for the sale and disposal of lands in the islands of Grenada, the Grenadines, Dominica, St. Vincent, and Tobago.

WHEREAS on account of the number of French inhabitants who have determined to take leases of their estates in the Neutral Islands, and from the multiplicity of surveying business necessary to be done, it has been found impracticable to proceed so speedily as the service requires without the assistance of more surveyors and negroes than those now employed under the commissioners. And as it hath been thought necessary to sell many plantations in those islands at computed quantities, subject to future surveys; and many of the persons who have purchased the same, are anxious that actual surveys may be immediately made of their estates, that they may be able to obtain their grants, and be certain of the quantity of their possessions. NOTICE IS HEREBY GIVEN, for the encouragement of surveyors to repair from other parts to the islands of St. Vincent and Dominica, and for the convenience of the persons who have purchased subject to future surveys, as well as the French Inhabitants who intend taking leases of their estates, that they may immediately employ any surveyors who are natural subjects of the king of Great-Britain, (except those already in the service of the commissioners) to make actual surveys of the estates by them purchased, or of which they intend taking leases. And in order to prevent frauds, and that no persons may undertake the business who are not skilled therein; the following rules and restrictions are to be observed, and an allowance for the expence of making the surveys is to be made to the possessors of the lands as after-mentioned.

That every purchaser or possessor of lands as above described, shall be at liberty to employ any person to survey his land, being a natural subject of the king of Great-Britain, he the said purchaser or possessor finding negroes and other necessary assistance.

That every such surveyor shall act under instructions from JAMES SIMPSON, Esq; his Majesty's chief surveyor, so far as relates to the particular mode of executing such survey; whereof he shall return to the said chief surveyor, a plan laid down by a scale of twenty chains to an inch, together with a fair copy of his field-book, subscribed with his name; and make oath before one of his Majesty's justices of the peace, that his field book and the plan of his survey is just and true to the best of his knowledge: The surveyor shall also make the proper line or lines of distinction between the wood land and the cleared land, in the plan which he shall return of lands sold in St. Vincent and Dominica; and of the estates possessed by French inhabitants, he shall include only cleared lands within his survey, and shall express in the plan whether the land bounding thereon is cleared or wood lands, and if cleared by whom possessed.

That every person acting as a surveyor shall leave a written notice at the houses of the proprietors or possessors of the plantations adjoining to that which he is employed to survey five days before he runs any of the out-lines of such plantation, and in such notice he shall express the particular day and hour when he intends to begin the said line, and from whence he intends to take his departure. And if the proprietors or possessors of such adjoining lands, or the representatives of either, shall think their property encroached upon by such line, the surveyor is not to proceed thereon without further directions from the chief surveyor. The surveyor is also required to inform himself of the boundaries of the plantation, which he shall be employed to survey, by application to the French or other neighbours.

That every person acting as a surveyor shall conform himself to the declaration made by his Majesty's commissioners previous to each sale, in regard to the distinction between cleared lands and wood lands; which expresses that every piece of land where the woods appear to have been heretofore cut down, shall be deemed cleared land, although overgrown with bushes, and if any dispute arises between the proprietor of such land, or his representative, and the surveyor, notice thereof shall be immediately given to the chief surveyor.

That every surveyor shall traverse not less than half a mile, nor more than one mile, nor more than one mile, of the sea shore, or some capital river, nearest the estate he shall be employed to survey, and connect it with the plan of such estate, in its proper situation with regard to course and distance.

That the commissioners shall be at liberty to direct the chief surveyor to survey any plantation they may think proper, notwithstanding it may have been before surveyed in the manner directed in the foregoing articles; and where one person shall have executed the surveys of more plantations than three, the chief surveyor is directed to write the names of the proprietors of such plantations on ballots, before two witnesses, and draw one out of three in the usual manner; and according to such lot he is to make survey of every third plantation, (unless the commissioners think it unnecessary) a make a return thereof.

That no survey or plan will be received by the commissioners, nor any consideration allowed by them for any work that is not conformable to these rules.

The commissioners hereby oblige themselves to pay unto the proprietors of such estates as may be surveyed in the manner aforesaid, as soon as they have the chief surveyor's return, that such survey has been performed agreeable to the directions before mentioned, and in conformity to his instructions, according to the following rates.

For each plantation, containing from one to twenty acres, two shillings sterling for the cleared and three shillings and six pence sterling for the uncleared land per acre.

For ditto, from twenty to one hundred acres, one shilling and six pence sterling for the cleared, and three shillings sterling, the uncleared per acre.

For ditto, from one hundred to two hundred acres, one shilling and three pence sterling for the cleared, and two shillings and six pence sterling the uncleared per acre.

For ditto, from two hundred to five hundred acres, one shilling sterling for the cleared, and 2 shillings sterling the uncleared per acre.

For the traverses of sea shores of rivers, not exceeding the quantity before mentioned, fifteen shillings sterling per mile.

Such persons as are determined to procure a survey of their plantations, according to the terms above mentioned, are desired to inform Mr. SIMPSON, the chief surveyor, of their intentions or of their having already executed such survey, before the first day of November next, by a letter to be left for him at the commissioners office, at St. Vincent, or to the care of ANDREW DEWAR, Esq; in Dominica: And the commissioners expect, that returns of such surveys will be delivered in to the chief surveyor, before the first day of January next.

The instructions to be followed by the surveyors relating to the particular mode of executing the surveys will be immediately forwarded at the commissioners office in St. Vincent, and with ANDREW DEWAR, Esq. at Dominica, from whence copies are to be taken.

By direction of the Commissioners,

JOHN GREG, Secretary.

CHARLESTOWN, October 12.

THIS day arrived here BENJAMIN PARSONS, Esq; post-master general of the southern district of America — While in Georgia, that Gentleman established an office there, and appointed Mr. Robert Bolton, deputy post master at Savannah.

The following paragraphs are from the Georgia Gazette of the 3d instant.

"Brigadier general Burquet died at Pensacola the beginning of last month, about ten days after his arrival.

"Mr. Sinnot, who accompanied Monsieur Gauterais to the Illinois with presents for the Indians, was at Pensacola about a month ago, waiting for an opportunity to go to Charles-Town. When they arrived at the Illinois 15 nations of Indians were met there, who took their presents from them, and sent them back, telling them they would not allow any English troops to take possession of the fort.—The Illinois were for putting them to death, but were prevented by Pondiac.

"The following was brought to Pensacola about a month ago, in a vessel from New Orleans, where copies of it were printed and published in French."

Extract of a letter from the Havana, wrote by M. Antonio La Ulloa, to the gentlemen of the superior council of the province of Louisiana.

Province of Massachusetts Bay, in Council, September 9th, 1765.

His Excellency spoke to the Council in the following words.

GENTLEMEN,

I HAVE been informed that it is reported about the town, that the stamped papers are to be lodged in the castle, there to be unpacked and distributed. I have frequently in conversation shewn the absurdity of such a supposition; but as what I have said is perhaps not much known, I make this declaration to you; that I have no warrant, order or authority whatsoever to distribute the stamped papers, or to unpack the bales, or separate the parcels, or order any person whatsoever so to do; that it cannot be conceived that I should be so imprudent as to undertake a business to which I have no appointment, and make myself answerable for large sums of money, the receipt of which I cannot attend to, and have no power to direct or order: What I have done in pursuance of your advice, in ordering the stamped papers to be deposited in the castle, and there to be defended with all the force of that fortress, was to preserve them entire and unpacked for his majesty's use. In this I have two things in view, to prevent imprudent people committing an high insult upon the king, an indignity which would be sure to meet with particular resentment; and to save the town or province, as it may happen, from being made answerable for so great a sum as the value of the stamped papers will amount to; as they certainly will be, if the stamped papers should be taken away. In providing against these two Evils, surely we are endeavouring to do the town and province, real and important service, whatever people in their present temper may think.

His Excellency having made the foregoing declaration to the board, they signified their unanimous desire to his Excellency that he would permit the same to be published; and his Excellency thereupon gave permission for publishing the same accordingly.

DOMINICA, *July 31st*, 1765.

By the King's Authority.

PUBLIC notice is hereby given, That the Commissioners appointed by his Majesty, for the sale and disposal of lands in the Island of Grenada, the Grenadines, Tobago, St. Vincent and Dominica, have resolved to hold the sales of land for the ensuing year, in the several Islands that are the object of their commission, at the following times, that is to say,

On Monday the 17th day of February next, the sale will commence in the Island of Dominica. The lots will consist chiefly of estates abandoned by the French in different parts of the island; plantation lots in the levels of Borry, Roseau and Layou, and in the neighbourhood of Prince Rupert's Bay and Grand Bay; and several town-lots in different places.

On Thursday the 10th day of April next will be put up to sale, some houses and lands in the island of Grenada.

On Tuesday the 6th day of May next will commence the sale of lands in the Island of Tobago, where several plantation lots in the neighbourhood of Great Courland Bay, Great Rockley Bay, Barbados Bay, Grand River Bay, and Carrapuse Bay, will be put up to sale. And,

On Wednesday the 28th day of May next, will commence, the sale of lands in the Island of St. Vincent, where will be put up to sale, several plantation lots in the level of Morne Agarou, and in the quarters of Chateau Bellair, and Ouachilabau, mostly of a very excellent soil, and adapted for sugar plantations; and several town-lots in different places. And also will be put up to sale, in the Island of St. Vincent, at the same time, what plantation lots remain unsold in the Island of Tobago. Advertisements descriptive of the situation and soil of each allotment shall be published as soon as possible.

The terms and conditions on which the said lands will be sold are. That no person shall be permitted to purchase from the crown, either in his own name, or in the names of others in trust for him, more than allotments to the amount of five hundred acres in the Island where the lands lie, or more than three hundred acres if in the Island of Dominica.

That the highest bidder for each lot shall be declared the purchaser, who shall thereupon pay down twenty per cent. of the whole purchase money, and six pence sterling for each acre of which his lot shall consist, to defray the expence of surveying the same; whereupon he shall receive a bill of sale and a certificate from the Commissioners of his being the highest bidder; upon producing which bill of sale and certificate to the Governor General of the Grenades, and the Neutral Islands, or the commander in chief for the time being, he shall be entitled to a grant in fee simple (under the seal of the Island) of the lands by him purchased, and take possession thereof; such grant to be registered in the Secretary's-Office of the respective Island where the lands lie.

That in case of fraud, collusion, or other contravention to the King's instructions, and not otherwise, the grant shall be revocable, for the space of twelve months from the date thereof, by the Lord High Treasurer, or the Lords Commissioners of his Majesty's Treasury, for the time being; but if not revoked within that term, the same shall then be absolute; if revoked, notice thereof shall be immediately given, and the money returned to the purchaser with the usual interest of the Island; and compensation also made for all sums of money, which shall bona fide have been laid out for clearing, improving, or building, on any part of the lands contained in such grant, to be ascertained by arbitration.

That of the purchase money remaining due, ten per cent. more than the twenty per cent, above-mentioned, shall be paid within the first year after the date of the bill of sale, ten per cent. the second year, and twenty per cent. every successive year until the whole shall be paid; but in default of any of the said payments, the lands shall be liable to be forfeited, and again sold, in order that the King may be first paid, and the residue shall be the property of those before intitled to it.

That from twelve months after the date of the grant, the purchaser shall clear away at the rate of five acres in the hundred annually, until one half of the cultivable land shall be cleared, under a penalty of five pounds sterling per annum for every acre not cleared in pursuance of this condition.

That for every hundred acres of cleared land, the purchaser is or shall be possessed of, he shall keep thereon one white man, or two white women, under a penalty of forty pounds sterling for every white man, and twenty pounds sterling for every white woman that shall be wanting; and pay an annual quit rent of six-pence sterling per acre on whatever cleared land he has purchased, or shall clear in pursuance of the conditions required.

That all payments shall be made conformable to the King's instructions to the Receiver, in good gold specie, to be taken by weight at the rate of three pounds eighteen shillings and three pence sterling per ounce; and bonds shall be given to him by the purchasers for the payments of the several instalments.

That a reservation shall be made to the King of all gold and silver mines, which are now, or may hereafter, be discovered in the said Islands.

By Direction of the Commissioners,

JOHN GREG, *Secretary.*

Dominica, August 8, 1765.

WHEREAS several of the twenty-five persons to whom Governor Dalrymple granted town-lots in Charlotte-Town, have not laid their grants before the Commissioners, as required to do by several advertisements, public notice is therefore given, that all unclaimed lots whereon houses have not been built, and for which the proportion of the money stipulated by Gov. Dalrymple's agreement to be paid for Madam Fourneau's pasture shall be unpaid on the 1st day of January next, will be considered as forfeited, and sold by public auction; and those persons who have made their claims and produced their grants, are required immediately to pay seven pounds ten shillings currency to Mr. Greg the secretary, that sum being each person's respective share of the purchase money, when they may receive the certificates to enable them to procure grants under the great seal of these islands.

By Direction of the Commissioners,

JOHN GREG, Secretary.

PUBLIC notice is hereby given, that the commissioners appointed by his Majesty for the sale and disposal of lands in the island of Grenada, the Grenadines, Tobago, St. Vincent and Dominica, have fixed their office in Kingston, in the island of St. Vincent; and desire that all letters for them may be addressed accordingly.

By Direction of the Commissioners,

JOHN GREG, Secretary.

Dominica, July 8, 1765.

By the Commissioners for the sale and disposal of lands in the islands of Grenada, the Grenadines, Dominica, St. Vincent, and Tobago.

WHEREAS on account of the number of French inhabitants who have determined to take leases of their estates in the Neutral Islands, and from the multiplicity of surveying business necessary to be done, it has been found impracticable to proceed so speedily as the service requires without the assistance of more surveyors and negroes than those now employed under the commissioners. And as it hath been thought necessary to sell many plantations in those islands at computed quantities, subject to future surveys; and many of the persons who have purchased the same, are anxious that actual surveys may be immediately made of their estates, that they may be able to obtain their grants, and be certain of the quantity of their possessions. NOTICE IS HEREBY GIVEN, for the encouragement of surveyors to repair from other parts to the islands of St. Vincent and Dominica, and for the convenience of the persons who have purchased subject to future surveys, as well as the French inhabitants who intend taking leases of their estates, that they may immediately employ any surveyors who are natural subjects of the king of Great-Britain, (except those already in the service of the commissioners) to make actual surveys of the estates by them purchased, or of which they intend taking leases. And in order to prevent frauds, and that no persons may undertake the business who are not skilled therein; the following rules and restrictions are to be observed, and an allowance for the expence of making the surveys is to be made to the possessors of the lands as after-mentioned.

That every purchaser or possessor of lands as above described, shall be at liberty to employ any person to survey his land, being a natural subject of the king of Great-Britain, he the said purchaser or possessor finding negroes and other necessary assistance.

That every such surveyor shall act under instructions from JAMES SIMPSON, Esq; his Majesty's chief surveyor, so far as relates to the particular mode of executing such survey; whereof he shall return to the said chief surveyor, a plan laid down by a scale of twenty chains to an inch, together with a fair copy of his field-book, subscribed with his name; and make oath before one of his Majesty's justices of the peace, that his field book and the plan of his survey is just and true to the best of his knowledge: The surveyor shall also make the proper line or lines of distinction between the wood-land and the cleared land, in the plan which he shall return of lands sold in St. Vincent and Dominica; and of the estates possessed by French inhabitants, he shall include only cleared lands within his survey, and shall express in the plan whether the land bounding thereon is cleared or wood lands, and if cleared by whom possessed.

That every person acting as a surveyor shall leave a written notice at the houses of the proprietors or possessors of the plantations adjoining to that which he is employed to survey five days before he runs any of the out-lines of such plantation, and in such notice he shall express the particular day and hour when he intends to begin the said line, and from whence he intends to take his departure. And if the proprietors or possessors of such adjoining lands, or the representatives of either, shall think their property encroached upon by such line, the surveyor is not to proceed thereon without further directions from the chief surveyor. The surveyor is also required to inform himself of the boundaries of the plantation, which he shall be employed to survey, by application to the French or other neighbours.

That every person acting as a surveyor shall conform himself to the declaration made by his Majesty's commissioners previous to each sale, in regard to the distinction between cleared lands and wood lands; which expresses that every piece of land where the woods appear to have been heretofore cut down, shall be deemed cleared land, although evergrown with bushes, and if any dispute arises between the proprietor of such land, or his representative, and the surveyor, notice thereof shall be immediately given to the chief surveyor.

That every surveyor shall traverse not less than half a mile, nor more than one mile, nor more than one mile, of the sea shore, or some capital river, nearest the estate he shall be employed to survey, and connect it with the plan of such estate, in its proper situation with regard to course and distance.

That the commissioners shall be at liberty to direct the chief surveyor to survey any plantation they may think proper, notwithstanding it may have been before surveyed in the manner directed in the foregoing articles; and where one person shall have executed the surveys of more plantations than three, the chief surveyor is directed to write the names of the proprietors of such plantations on ballots, before two witnesses, and draw one out of three in the usual manner; and according to such lot he is to make survey of every third plantation, (unless the commissioners think it unnecessary) a make a return thereof.

That no survey or plan will be received by the commissioners, nor any consideration allowed by them for any work that is not conformable to these rules.

The commissioners hereby oblige themselves to pay unto the proprietors of such estates as may be surveyed in the manner aforesaid, as soon as they have the chief surveyor's return, that such survey has been performed agreeable to the directions before mentioned, and in conformity to his instructions, according to the following rates.

For each plantation, containing from one to twenty acres, two shillings sterling for the cleared and three shillings and six-pence sterling for the uncleared land per acre.

For ditto, from twenty to one hundred acres, one shilling and six pence sterling for the cleared, and three shillings sterling, the uncleared per acre.

For ditto, from one hundred to two hundred acres, one shilling and three pence sterling for the cleared, and two shillings and six pence sterling the uncleared per acre.

For ditto, from two hundred to five hundred acres, one shilling sterling for the cleared, and 2 shillings sterling the uncleared per acre.

For the traverses of sea shores or rivers, not exceeding the quantity before-mentioned, fifteen shillings sterling per mile.

Such persons as are determined to procure a survey of their plantations, according to the terms above mentioned, are desired to inform Mr. SIMPSON, the chief surveyor, of their intention or of their having already executed such survey, before the first day of November next, by a letter to be left for him at the commissioners office, at St. Vincent, or to the care of ANDREW DEWAR, Esq; in Dominica: And the commissioners expect, that returns of such surveys will be delivered in to the chief surveyor, before the first day of January next.

The instructions to be followed by the surveyors relating to the particular mode of executing the surveys will be immediately forwarded at the commissioners office in St. Vincent, and with ANDREW DEWAR, Esq; at Dominica, from whence copies are to be taken.

By direction of the Commissioners,

JOHN GREG, Secretary.

INSURANCES proposed against LOSSES from FIRE.

ABOUT four years ago several persons having maturely considered, how frequent and destructive *fires* have been in this town, proposed to form themselves into an association, for mutually insuring each other against such *losses*; but tho' many people seemed willing, and accordingly entered their names, to promote so useful a design, through some inattention, however, no meeting of the subscribers could be procured, to digest the necessary rules, notwithstanding repeated notices were given for that purpose. The great loss which happened this morning from *fire*, and the probability that it might have been more general (had not *Providence* ordered it so *mercifully*, that the weather was almost calm) 'tis hoped will induce every man, who seriously regards his own and his family's interest, to think of securing himself against the sudden and unexpected *ruin* such accidents occasion, seeing no one can fore-know how soon it may come, or upon whom it may fall. All the former subscribers to the *Friendly Society*, and others who are willing to *insure their houses in town*, are therefore earnestly requested, to meet at Mr. Robert Dillon's, on Wednesday the 16th day of October next, in order to concert and frame such rules, as may establish so highly necessary an institution on the surest footing.
